To determine which author names should be grouped together under a single identifier number, the Scopus Author Identifier uses an algorithm that matches author names based on their affiliation, address, subject area, source title, dates of publication, citations, and co-authors. Documents with insufficient data may not be matched, this can lead to more than one entry in the results list for the same author. By default, only details pages matched to more than one document in Scopus are shown in search results. About Scopus Author Identifier

Documents  Authors  Affiliations  Advanced

Author last name

* e.g. Smith

Affiliation

* e.g. University of Toronto

Author first name

* e.g. J.I.

You have requested to correct details for the following author:

**Azizi, Fereidoun**

- **Author ID**: 55359852500
- **Documents**: 165
- **Affiliation**: Endocrine Research Center, Tehran

Include the following potential author matches in the request:

1. **Azizi, F.**
   - **Author ID**: 57193823563
   - **Affiliation**: Ministry of Agriculture

2. **Azizi, F.**
   - **Author ID**: 7006689117

3. **Azizi, F.**
   - **Author ID**: 57190220821
   - **Affiliation**: Tehran University of Medical Sciences

The Scopus Author Identifier assigns a unique number to groups of documents written by the same author via an algorithm that matches authorship based on certain criteria. If a document cannot be confidently matched with an author identifier, it is grouped separately. In this case, you may see more than one entry for the same author.
Author feedback wizard

Merge selected authors
You have requested to merge the following authors:

1. Azizi, Fereidoun  55389825800  Endocrine Research Center, Tehran
   - Show recent documents

2. Azizi, Fereidoun  38519137100  Endocrine Research Center, Tehran

DISTINGUISH YOURSELF IN THREE EASY STEPS

ORCID provides a persistent digital identifier that distinguishes you from every other researcher and, through integration in key research workflows such as manuscript and grant submission, supports automated linkages between you and your professional activities ensuring that your work is recognized. Find out more.

1. REGISTER
   Get your unique ORCID identifier Register now!
   Registration takes 30 seconds.

2. ADD YOUR INFO
   Enhance your ORCID record with your professional information and link to your other identifiers (such as Scopus or ResearcherID or Linkedin).

RESEARCHERID

What is ResearcherID?
ResearcherID provides a solution to the author ambiguity problem within the scholarly research community. Each member is assigned a unique identifier to enable researchers to manage their publication lists, track their times cited counts and h-index, identify potential collaborators and avoid author misidentification. In addition, your ResearcherID information integrates with the Web of Science and is ORCID compliant, allowing you to claim and showcase your publications from a single one account. Search the registry to find collaborators, review publication lists and explore how research is used around the world!

Top Keywords
Find researchers based on your area of interest.

Subject: ResearcherID - Invitation to Register in ResearcherID.com

From: researcherid@researcherid.com

Dear Laleh Saravi,

Thank you for your interest in joining ResearcherID!

Copy and paste this link into your browser to complete the registration process:

http://www.researcherid.com/VerifyURLAction?id=FlG7J38Ds296Yk%2B6UML%2F%2BFRLt1vJSCY8yyyq477eqEG8k4PC86x4tjB0%3D%3D

As a registered member, you can:

- Manage your publication list and showcase your work
- Track your times cited count and h-index
- Identify potential global collaborators
- Avoid the common problem of author misidentification

Because ResearcherID integrates with Web of Science® and EndNote online, you can claim your publications quickly and easily. These publications will then

Your username: Jouabi@sbmu.ac.ir
